Overview

BCA student and aspiring Software Developer with hands-on experience in web and mobile application devel opment, AI-based projects, and modern software technologies. Skilled in building responsive web applications, developing mobile applications, integrating APIs and cloud services, and working with technologies such as React, JavaScript, Firebase, Python, FastAPI, and Git/GitHub. Experienced in developing and deploying real-world projects and participating in hackathons, with a strong interest in Artificial Intelligence, Full Stack Development, and scalable software solutions. Passionate about solving real-world problems through technology and continuously improving technical and problem-solving skills.

Education

- **Bachelor of computer application** 2025– Present
  Chandigarh group of college, jhanjeri

Experience

full stack developer Intern, Intrnforte Apr 2026– Present

Projects

Archit-Portfolio

- Developed and deployed a responsive personal portfolio website showcasing projects, technical skills,
- experience, and professional profile.
- Designed a modern, user-friendly UI with responsive layouts optimized for desktop and mobile devices.
- Implemented interactive sections to present software development projects, technical expertise, and pro
- fessional achievements.
- Stack: TypeScript, Swift, JavaScript, HTML, CSS
- Stack: TypeScript, Swift, JavaScript, HTML, CSS

industria-ai

- INDUSTRIA AI is a PC health monitoring and optimization platform that analyzes the computer on
- which it is running. It collects real-time system information such as CPU, RAM, storage, battery, and
- running processes, converts the measurements into health scores, identifies system risks, and provides
- AI-assisted diagnostics and optimization tools.
- Unlike a traditional task manager, INDUSTRIA AI focuses on turning raw system metrics into un
- derstandable health scores, risks, recommendations, performance history, application analysis, and AI
- powered diagnostics.
- Stack: Python, JavaScript, CSS, HTML
- Stack: TypeScript, Swift, JavaScript, HTML, CSS

Skills

- **DevOps:** Git, GitHub, Linux
- **Databases & Infra:** MySQL, Firebase, Linux (Ubuntu)
- **Languages:** C++, Java, JavaScript, SQL • CS Fundamentals: DSA, OS, DBMS, CN
- **Backend/Frontend:** REST APIs, JWT Auth, React.js, Next.js, Node.js, Express.js, Tailwind CSS

Achievements

- CA Super Coder 30 (CGC University Mohali)

Certifications

- CypherVerse2026(Hackthon) · CGC University Mohali
- Presenting Data · Hp Life— Hp Foundation
- Niramaan Hackathon 2026 · CGC University Mohali
- Hack-N-Win 3.0 · CGC University Mohali
- AI Upskilling Certification: Technical Foundation · Qualcomm academy
- C Programming for BCA · Data Flair
